The **NYC-neighborhood-by-race** file shows racial breakdown in New York City neighborhoods from the most recent American Community Survey, as reported by the Census Bureau, covering the years from 2010-2014. It's the most recent data on racial break down by neighborhood in the city and was compiled by the New York City Planning Department.

New York is a city of neighborhoods. Every block can be considered a new neighborhood in some parts of the city. In order to normalize data, however, the city uses "Neighborhood Tabulation Areas." These are specific zones in the city that match up to Census blocks.

Record Layout

Borough – Borough of the Neighborhood Tabulation Area
Neighborhood Code – Code used by NYC for that NTA
Neighborhood – Name of that Neighborhood Tabulation Area
Total Population – Total population of that area
White – Total White population of that area
Black/African American – Total Black/African American population of that area
American Indian and Alaska Native – Total American Indian and Alaska Native of that area
Asian Native Hawaiian and Other Pacific Islander – Total population of Asian Native Hawaiian and Other Pacific Islanderthat area
**Some Other Race** – Total population of any other race not previously listed
Two or More Races – Total population of individuals who reported two or more races. (Note that the data does not show which races were indicated, just the population of individuals who chose to say more than one race.)
Hispanic Origin (of any race) – Total population of individuals who reported Hispanic Origin in that area. (Note that the Census Bureau treats Hispanic Origin as an ethnicity, meaning an individual would report Hispanic Origin and a race. The NYC Planning Department, however, has broken this out as a separate category.)

The next page has mapped this data for the Black Non-Hispanic Population, which is available on the next page.

PL-P7 NTA: Black Nonhispanic Population
by Neighborhood Tabulation Area*
New York City, 2010

Black Nonhispanics

- 40,000 or more
- 30,000 to 39,999
- 20,000 to 29,999
- 10,000 to 19,999
- 5,000 to 9,999
- Under 5,000

Manhattan

Bronx

Queens

Brooklyn

Staten Island

*Blacks of a single race.
Neighborhood Tabulation Areas or NTAs, are aggregations of
census tracts that are subsets of New York City's 55 Public Use
Microdata Areas (PUMAs). Primarily due to these constraints, NTA
boundaries and their associated names may not definitively
represent neighborhoods.
